Dear Scott,

Thank you for the fabulous clear bra wrap you put on my Audi A4. I am impressed by the surgical precision you used to customize the wrap. The additional work you performed on the lower trunk area made my car sparkle like new again. I was impressed by the amount of time you took to ensure a quality application and professional result.

After you put a clear bra on my husband's Yukon last year we decided to entrust you with my new car. We are completely satisfied with the clear bra and will continue to use you for our future cars.

Thank you,

Debbie Craycraft
