Highlands Ranch, CO 80216

Dear Scott;

I offer this letter as a strong endorsement of your company's excellent service and installation quality of the 3M clear bra product. I am thrilled with how nice the clear bra looks on my new 2002 Acura TL. My previous experience with a clear bra installation was not so pleasurable. Another vendor applied the product to my 1998 Nissan Maxima. In the process scratched the clearcoat and paint on the hood, left gaps in the adhesion of the product around the edges of both mirrors and had deep gorges in the hood mask from misapplying the film.

My experience with Clear Bra Connection was wonderful. The 3M product was carefully installed on my car without mishap. My first referral call will be to my car broker, Scott Hankins, at Centennial Leasing, endorsing your company.

Please share my comments with your future customers.

Sincerely,

Gordon W., Littleton, CO
